Enhancements & tasks

UI overhaul for maintenance event timeline (LAM)

The user interface has been redesigned to visualise events performed in the past, as well as upcoming events with costs.

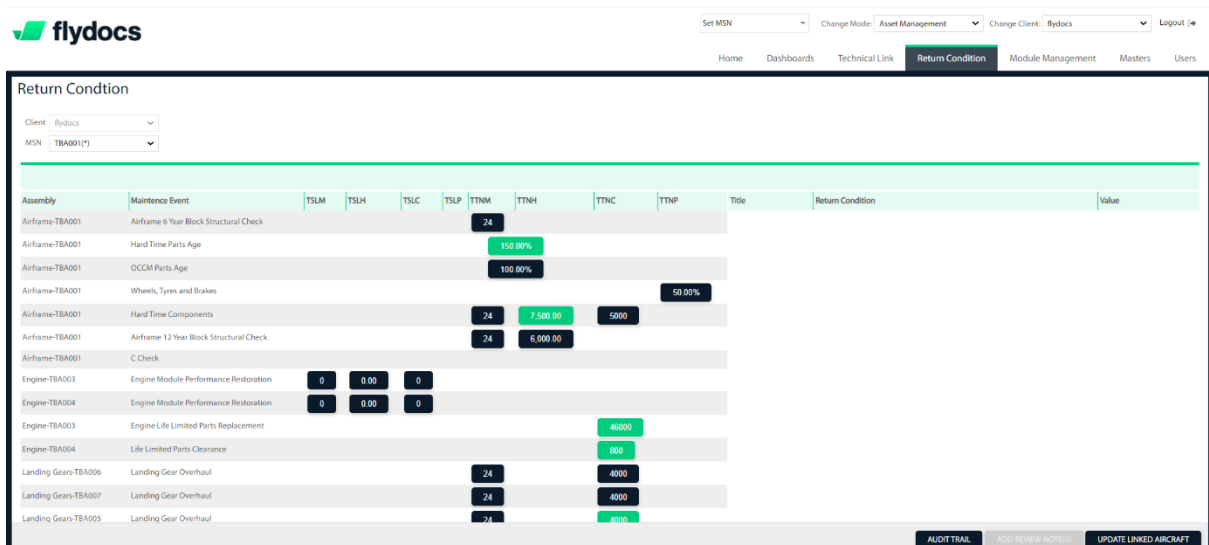

UI overhaul for lease milestones (LAM)

The user interface has been redesigned to reflect major milestones, such as upcoming redelivery, lease purchase or extension.

Track return conditions for titled assemblies

Users can now track return conditions for titled assemblies against current status, ensuring that the status of lease returns is known.
